

Automated Executive Powerpoints

Introducing the Automated Executive PowerPoint, a fully white-labeled presentation designed to help MSPs and IT teams explain vPenTest findings to executives and upper management. It turns complex technical details into clear, business-focused insights, with built-in supporting evidence to guide informed decisions.

PRESENT NETWORK SECURITY RESULTS WITH CONFIDENCE, NOT COMPLEXITY

The Executive PowerPoint presentation provides a high-level overview of your assessment results, focusing on the **top 3 critical findings** discovered during the penetration test. It is fully white-labeled, customizable, and automatically generated alongside your existing assessment reports at no extra cost for vPenTest customers.

No add-ons and no extra steps. It is part of your standard deliverables, ready for internal reviews or prospect presentations.

- ✓ Save time creating custom presentations
- ✓ Deliver presentations that resonate with execs
- ✓ Clearly communicate security impact
- ✓ Drive decisions & prioritize remediation faster

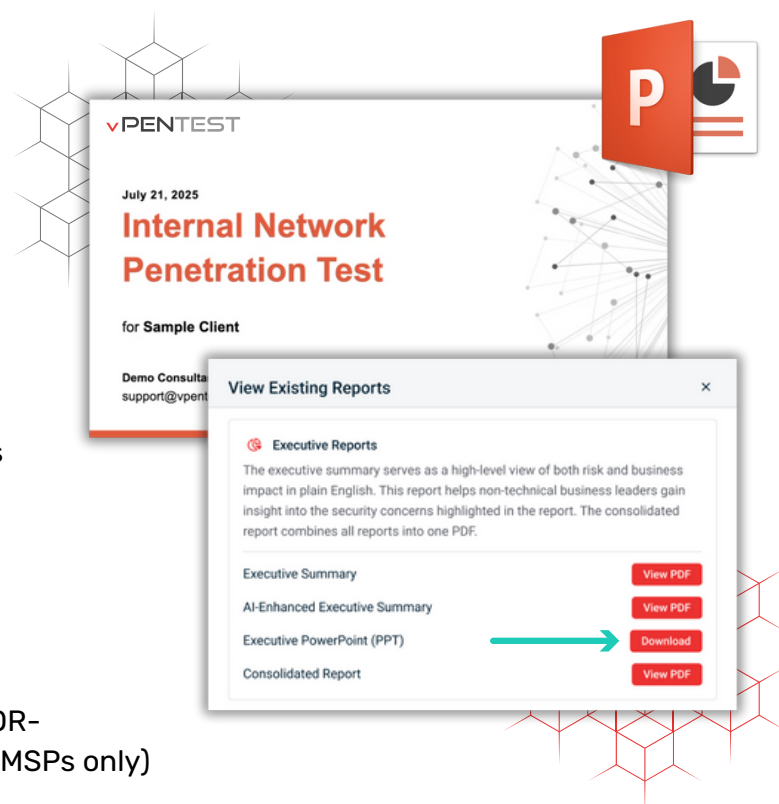

Smart Speaker Notes (Powered by AI)

To make your job even easier, the PowerPoint comes with AI-generated speaker notes tailored to the organization's industry.

- Translate technical findings into business terms
- Highlight industry-specific security impacts
- Support clear, confident delivery

HOW IT WORKS

1. Go to the **Reports** page in vPenTest
2. Click Action button > **View Existing Reports** -OR-
3. Click Action button > **View Prospecting Tests** (MSPs only)
4. Click **Download** to save the PPT file

See why vPenTest is the best way to get a high-quality network penetration test without breaking the bank.
