Small-Business Grid® Report for Penetration Testing | Fall 2025

Small-Business Grid® Report for Penetration Testing | Fall 2025 is based off of scores calculated using the G2 Grid® algorithms from reviews collected by August 12, 2025.

PenTest has never been so easy!

The interface is amazing and easy to browse, it has a number of resouces that you can use and we now use this so much more since having vPenTest. Automation saves time and reducing the need for manual intervention which is great.

Connor G.
Senior IT Engineer

Fantastic onboarding and easy adoptions for our staff

The ease of setting up routine scheduled internal and external PenTests is perfect to make revenue from.

vPenTest enables us to stay on top of clients vulnerabilities meaning we're one step ahead of other MSPs in our area.

Tony H.
Chief Technology Officer

Impressive Capability and Seamless Onboarding

The vPenTest tool is a game changer really. The ability to provide a compehresive evaluation with root causes of vulnerabilities and even with remediation actions in such a short period of time is incredible. The onboarding was also amazing. We were able to easily incorporate the tool into our services and many of our initial concerns were quickly resolved. Ky and the team also went the extra mile to provide valuable insight on set up and with helpig us understand some of the advanced features. The online portal is very intuitive and user friendly! Great product and highly recommended as an MSP tool!
